EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael J. Turton on February 5, 2007.

The application has been amended as follows:

In claim 12, line 12, the phrase "the first polarizing beam splitter" has been changed to --the second polarizing beam splitter--.

The withdrawn claims 1-11, 13-15, 19 and 32-36 have been canceled to place this application in condition for allowance.

2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to an optical projection system. The independent claim 12 identifies the distinct features: "at least a second spatial light modulator producing at least a second image; a second polarizing beam splitter between the at least one light source and the at least one second spatial light modulator; a combining polarizing beam splitter for combining the first image and the second image by superimposition to create a composite first image, wherein the first image is transmitted by the fast polarizing beam splitter and reflected by the combining polarizing beam splitter and the second image is reflected by the

second polarizing beam splitter and transmitted by the combining polarizing beam splitter". All the references of record, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
